Thanks Greg. Has CEFIC shared this with the Commission?

With our apologies for the delayed circulation, please find attached a joint paper from ACC and Cefic outlining recommendations for enhancing chemical regulatory cooperation under TTIP. This document naturally represents a compromise, and is not as ambitious as we had originally hoped. For that reason, please also find attached more detailed supplemental recommendations from ACC.

As discussed separately with Barbara and John last week, we would be more than happy to sit down with USTR and EPA, jointly or separately, to walk through these documents and further explain our thinking. We realize that time is now very short before the December 16-20 negotiating round, but would be happy to talk at your convenience.

Many thanks,

Greg Skelton
